-
-

Item 8.01 Other Events.

Quanex Corporation (the “Company”) management will be meeting with investors on April 10, 2008 through April 16, 2008 to discuss the pending spin-off of the Company’s wholly-owned subsidiary, Quanex Building Products Corporation, and the Company’s merger with a wholly-owned subsidiary of Gerdau S.A. The slides that will accompany the meetings are attached hereto as Exhibit 99.1 and are incorporated herein by reference.

The slides attached hereto as Exhibit 99.1 contain “forward looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical facts included or incorporated herein may constitute forward-looking statements. Actual results could vary significantly from those expressed or implied in such statements and are subject to a number of risks and uncertainties. Statements that use the words “expect,” “should,” “believe,” “will,” “might,” or similar words reflecting future expectations or beliefs are forward-looking statements. Factors that could impact future results may include, without limitation, the effect of both domestic and global economic conditions, the impact of competitive products and pricing, and the availability and cost of raw materials. For a more complete discussion of factors that may affect the Company’s future performance, please refer to the Company’s most recent 10-K filing (December 14, 2007) under the Securities Exchange Act of 1934, in particular the section titled, “Private Securities Litigation Reform Act” contained therein.

Item 9.01. Financial Statements and Exhibits.

Exhibit 99.1. Slides presented at the meetings on April 10, 2008 through April 16, 2008

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

MARKET DRIVEN, PROCESS BASED

We are a technological leader in the production of mill finished and value-add aluminum sheet. Our low-cost, scrap-based continuous caster is a differentiator for us.

New residential construction and remodeling are our key markets.

Engineered Building Products

We produce window and door components for OEMs that primarily serve the residential building and remodeling markets.

50 million window units produced in the U.S. in 2007

We're all about windows and doors and we supply the brand leaders!

PVC Extruded Window and Door Products

- Profiles
- Window trim
- Co-extrusion capabilities:
 - Veneer wrapping
 - Specialized coating
- Insulation insertions

Window and Door Fenestration Components

- Screens
- Grilles and mouldings
- Roll formed components
- Thresholds and astragals

Insulated Glass Sealant Systems

- DuraSeal™
- IG system installation equipment

Aluminum Sheet Building Products

- Finished aluminum sheet
- Painted and coated sheet
- Custom widths

Investment Highlights

A Record of Innovation – Both Product and Process

Cutting-Edge Capabilities

- Culture of continuous process improvement
- Broad application of lean manufacturing principles
- Value mapping
- Six Sigma methodologies
- Kaizen events
- Standardized work techniques

Specialized Products

Competitive Prices

Best-in-Class Service and Logistics

Low-Cost Positions

Short Lead Times

Superior Reputation for Quality and Service

Collaborative design &
engineering services

State-of-the-art manufacturing
processes

Commitment to continuous
process improvement

- Just-in-time delivery
- Lead times as short as three days
- Low finished goods inventories
- On-time delivery rates well above 90%
- Cost-effective new product designs

Strong Competitive Positions

Strong product engineering

Product co-development practices

Customized design and blending

High-quality materials

Proprietary manufacturing techniques

Value-added finishing services

- **Product Differentiation**

- **Preferred Supplier Status**

- **Defendable Market Positions**

- **Attractive, Sustainable Operating Margins**

Organic Growth Prospects

Recent Product Launches

- MikronWood™ composite window profiles
- Advanced thermal coatings

Key Drivers Outlook

Even though the housing market in 2008 is expected to be the worst in 20 years, we expect to:

- Continue to outperform the market
- Be in an enviable position to take advantage of a market recovery

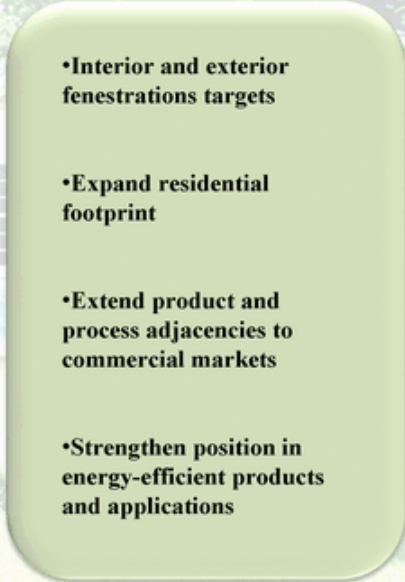

Sources:
Global Insights (Housing Starts) – March 2008,
NAHB (Remodeling) – October 2007.

- **History of strong cash flow and attractive financial performance**
- **Conservative capital structure**
 - No debt
 - \$21 million available cash⁽¹⁾
- **Considerable resources to fund growth strategy**
 - Strong, stable cash flows
 - Significant borrowing capacity
 - \$275 million revolver

(1) Subject to additional cash true-ups at transaction close and net cash flow during Separation Period.

Ray Jean

- **QBP – A solid business with a record of outperforming its served markets**
- **Historically strong cash flows**
- **Pristine balance sheet**
- **Seasoned management team**
- **Demonstrated integration skills**
- **Exciting growth potential**

	Engineered Products	Aluminum Sheet Products	Quanex Building Products	Engineered Products	Aluminum Sheet Products	Quanex Building Products	Engineered Products	Aluminum Sheet Products	Quanex Building Products
Operating Income ⁽¹⁾	\$59	\$72	\$131	\$53	\$82	\$135	\$44	\$66	\$110
Depreciation and amortization ⁽¹⁾	22	10	32	27	10	37	28	10	38
EBITDA⁽¹⁾	\$82	\$82	\$164	\$79	\$92	\$171	\$72	\$76	\$147

In addition to using Net Sales and Operating Income to evaluate the Company's financial performance, it also utilizes other financial metrics to evaluate performance, including the non-GAAP financial metric EBITDA. The Company defines EBITDA as earnings before interest expense, taxes, depreciation and amortization and other non-operating income. The Company uses EBITDA as a measure of its operational profitability before non-operating expenses and charges.

The Company believes EBITDA is useful to investor and other external users of its financial statements in evaluating its operating performance because it helps investors more meaningfully evaluate and compare the results of operations from period to period by removing the impact of capital structure (primarily interest charges from outstanding debt) and asset base (primarily depreciation and amortization of fixed and intangible assets) from its operating results.

The Company uses EBITDA as a measure of operating performance to assist in comparing the Company's performance on a consistent basis as it removes the impact of the Company's capital structure and asset base from its operating results; to assess compliance with financial ratios and covenants that are expected to be included in its revolving credit facility; in communications with lenders, rating agencies and others concerning the Company's financial performance; and to assist the Company in evaluating acquisitions by providing a comparable measure in which to value potential target companies.

(1) Segment operating income, depreciation and amortization and EBITDA are before corporate expenses, LIFO charges and stock option expenses.
